Bike Name Son of a Gun

Builders Name Larry Houghton

Owner Larry Houghton

Year / Model 1951

Engine Make / Size BSA 500 db32 Goldstar

Frame Make / Type Steel one-off

Rake 26 deg

Stretch None

Trail 110mm

Front End Telescopic one-off

Swingarm Steel one-off

Drivetrain BSA M21 gearbox

Wheels [Front] Talon 17

Wheels [Rear] Talon 17

Tyres [Front] Dunlop 17x 90

Tyres [Rear] Metzeler 17x 140

Brakes [Front] One-off hyd/cable hybrid

Brakes [Rear] Hydraulic one off

Painter Del Whittaker

Chroming / Plating Dorsetware Nickel

Additional Info

All components machined and fabricated by myself. The engine is from an old racing 1951 BSA. All materials were sourced from a friends scrap bin, and all parts (engine, gearbox, wheels etc.) from eBay.

Small TT carb brakes and all parts made and designed by myself. The design ideas are probably a cross between 60s racing Hondas, FSIE Yamahas and British motorcycle heritage.

The build time is in excess of 1400hrs, although monetary costs fairly small, approx 9000 dollars including paint.
