Bike Name SpaceSter

Builders Name Bernard "Buck" Massart

Owner Bernard "Buck" Massart

Year / Model 1987 XL1200

Engine Make / Size Sportster 1200 cc

Frame Make / Type Owner, perimetric rigid

Rake Stock

Stretch 0

Trail Stock

Front End Yamaha -3" - inverted

Swingarm None

Drivetrain Barnett hydraulic

Wheels [Front] Suzuki 2.75 x 18

Wheels [Rear] Suzuki 4 x 18

Tyres [Front] Avon 110/80-18

Tyres [Rear] Avon 160/60-18

Brakes [Front] Owner - perimetric discs + scooter caliper

Brakes [Rear] Owner - disc by owner and scooter caliper

Painter Hot Quad et Tiz Creation

Chroming / Plating None

Additional Info

It has been built by Buck around a Sportster engine which is now unrecognizable behind its complete metal suit. All the components (frame, body and so) are handmade from tubes and sheet steel. The front wheel comes from a Suzuki on which Buck has made two perimetric brake discs, on which act calipers from a scooter. Buck also made the rear brake system. He has done all of the engineering and electric works too. As it is very difficult to portray in a few words all that has been done, you'd better take a look at this SpaceSter if you want to walk on the Moon... Because it is not a Bike, it is a SpaceSter !
